

Single Core PVC Insulated Cables 450/750 V

Harmonized Code
H07V-U/R

Type
6491X

Constructions

Technical Data

Standards

• IEC 60227-3 • BS 6004 • HD 21.3.S3 • GB5023

Product Certification

Range of Size

1.5 mm² ~ 400 mm²

Applications

Installations inside conduits or trunkings.

Conductor

Class 1/2 plain annealed copper wires, solid or stranded.

Insulation / PVC

Core Colour

Brown, grey, black, blue, green/yellow or others on request.

Operating Temperature

70 °C

The Current Ratings and Voltage Drop figures refer to
Technical References Section Table 1A and 1B
respectively.
